

# CENTURI

## Seminar Series

### Calendar

September 2019  
July 2020

## September

---

**September 09 - Internal seminar:** Kheya Sengupta (CINAM, Marseille, France) - Physics of cell adhesion: from model membranes to T-cells

**September 16 - External seminar:** Michael Way (Francis Crick Institute, London, UK) - New levels of complexity in actin polymerization

## October

---

**October 14 - External seminar:** Alain Goriely (Oxford University, UK) - Modelling Dementia

## November

---

**November 04 - External seminar:** Raymond Goldstein (University of Cambridge, UK) - Upside-Down and Inside-Out: The Biomechanics of Cell Sheet Folding

**November 18 - External seminar:** Marie Doumic (Inria, Paris, France) & Wei-Feng Xue (University of Kent, UK) - The Division of Amyloid Fibrils – Theory, Experiments and Predictions

**November 25 - Internal seminar:** Philippe Pierre (CIML, Marseille, France) - Translating Immunity

## December

---

**December 09 - External seminar:** Patrick Tabeling (ESPCI, Paris, France) - Microfluidics, droplets, foams, photonics, cell culture

**December 16 - External seminar:** Carl-Philip Heisenberg (Institute of Science and Technology, Klosterneuburg, Austria) - Mechanosensation of tight junctions by ZO-1 phase separation and flow

## January

---

**January 13 - Internal seminar:** Bianca Habermann (IBDM, Marseille, France) - Exploring mitochondrial expression dynamics in a user-friendly and visual way using the mitoXplorer web-platform

**January 20 - External seminar:** Carsten Grashoff (Max Planck Institute of Biochemistry, Martinsried, Germany) - Piconewton-sensitive biosensors to investigate adhesion mechanics in cells

## February

---

**February 03 - External seminar:** Anne Ferguson Smith (University of Cambridge, UK) - Epigenetic inheritance in mammals – models and mechanisms

# CENTURI

## Seminar Series

### *Calendar*

September 2019  
July 2020

## March

---

**March 09 - External seminar:** Chloé-Agathe Azencott (Mines Paris Tech, France) - Network-guided biomarker discovery

**March 16 - Internal seminar:** Rosa Cossart (INMED, Marseille, France) - How development shapes memory circuits

**March 23 - External seminar:** Alexander Aulehla (EMBL Heidelberg, Germany) - TBA

## April

---

**April 06- External seminar:** Ana Smith (Friedrich-Alexander-Universität, Erlangen, Germany)- TBA

**April 27- Internal seminar:** Axel Magalon (LCB, Marseille, France)- TBA

## May

---

**May 18 - External seminar:** Matt Nolan (University of Edinburgh, Scotland) - TBA

## June

---

**June 8 - Internal seminar:** Elisabeth Remy (I2M, Marseille, France) - TBA

**June 15 - Internal seminar:** Christophe Eloy (IRPHE, Marseille, France) - TBA

**June 29 - Internal seminar:** Benoit Ballester (TAGC, Marseille, France) - TBA

## July

---

**July 06 - Internal seminar:** Arup Chakraborty (MIT, Boston, USA) - TBA
